It's easy to create with Intuos: you can sketch and doodle, edit photos and design personal invitations or greeting cards – all on your computer, and always just as naturally as you would do with a pen or brush on paper.

Intuos detects the software you use – and offers recommended shortcuts via its four ExpressKeys. Or you can just personalise those buttons – Intuos is smart so you can create.

Different people have different tastes. Just change the colour of the pen holder and the pen ring to match your mood or style. Make it your Intuos.

Enjoy wireless flexibility.
Cut down on cord clutter and enjoy the freedom of working unattached from your computer with a Wacom Wireless Accessory Kit (not included in packaging)

This innovative pen tablet combines Wacom's finest pen capabilities with intuitive multi-touch gestures and gives you the power to produce professional results.

Your endless creative toolbox.
2048 levels of pen pressure sensitivity and tilt recognition let you create with the accuracy and precision of traditional brushes and pens while multi-touch gestures let you position and navigate your work intuitively.

Control you can feel.
Pan, zoom, and navigate naturally with gestures on the multi-touch surface that also lets you create and access your own multi-touch shortcuts.

Enjoy wireless flexibility.
Cut down on cord clutter and enjoy the freedom of working wirelessly.

New

Professional driver - ExpressKeys can now be programmed per application, advanced mapping features, Radial Menu

Ergonomic, slim design with slight slope and metal finish (appeal), colour rings and pen holder can be exchanged

All SKUs can be made wireless (extra Wireless Kit necessary)

New

Improved Multi-Touch sensor with optimised touch experience

Wireless Accessory Kit (worth 40€) included in the packaging

ExpressKeys with new feel to the switches

Special Edition with metal colour scheme
