

# ADVANCED 24/7 SUPPORT

## Now included with Creative Cloud for teams

Creative Cloud for teams now offers advanced 24/7 technical support for administrators. Now you can connect with dedicated reps anytime of the day or night to resolve critical issues and keep your team running smoothly.

- Administrators now get priority access to highly trained reps via a dedicated phone number or web chat.
- Team members still get two one-on-one sessions per year with Adobe product experts to help them solve workflow issues and find answers to app-specific questions.

**Already a Creative Cloud for teams member? Take advantage of advanced 24/7 support today. Just click the Support link in the Admin Console to find your dedicated phone number.**
